

WHAT IT'S ALL ABOUT

Experts estimate that \$1.5 to \$3.0 billion dollars or more are given away every year to those who know how to ask for it.

Unfortunately, hundreds of millions of dollars are left unclaimed because either *no one asked*—OR *no one asked correctly*.

Reasons for not asking include:

"I didn't know it was there"

"I didn't know I qualified"

"I didn't know how to find grants"

"It was too complicated"

"I didn't understand the process."

The only reason for not *asking correctly*:

"I didn't know how."

After this seminar and workshops, you'll know the basic "who, what, why, where, when and how" about college scholarships and grants. You'll also learn how to get "all A's" in less time—even if you're NOT an Einstein! Then, you'll learn the main SAT/ACT test prep & test taking tricks. Finally, you'll learn interview secrets that work well (this helps when you're a finalist and must meet decision-makers). After this training, you'll worry less about competition while others worry more about YOU and your new skill at persuading reviewers to give YOU the money!

In Go To College Free! sessions, Dr. Wilson will teach you the process and a 'business approach' to help you prepare for and build a powerful winning plan worth...you guessed it: *many thousands of college dollars...*

WHAT PEOPLE ARE SAYING

"Oh my goodness! We had no idea! I only wish someone would have told us about this sooner!"

- E. Hallas, Snohomish, WA

"Prior to the 'Go to College Free', we were clueless about the process of applying for grants...Jack was fantastic... he laid out a practical, comprehensive, and achievable approach to this daunting task. He removed the mystery and helped us create a winning strategy. To date we have nearly half our son's college expenses covered by grants, and that percentage will increase into next year...This is worth big money!"

- G. Abbott, Kenmore, WA

"This was fantastic! Dr. Wilson captured my students' attention and held it with his interactive, entertaining yet informative seminar. Students who were 'on the fence' about college came away pumped up about their options for the future! ...Parents and kids are still talking about it!"
